Compiled By: G.J. Barry Nelson

INTRODUCTION

This listing of primary wood using industries in New Brunswick was compiled in October 1982 by the Forest Utilization Branch from information supplied by the District Forest Rangers located throughout the Province.

The list will be updated annually for the use of the Department of Natural Resources and other government and private agencies with interests in the utilization of New Brunswick's primary forest products.

The Branch wishes to acknowledge the assistance of the field staff, and in particular the District Forest Rangers, without whose contribution the publication of this document would not be possible.

NOTE: Mills marked with an asterisk (*) are Licensees and/or Sub-licensees under the Crown Lands and Forests Act and have a Crown wood allocation.
